

# A life-changing career as a Critical Care Nurse

CCNOP training prepares you to work in a Manitoba Intensive Care Unit. Apply for a paid trainee position and learn new skills in a supportive environment. Upon completion, you will continue working on your unit with your new team!

**Manitoba ICUs are expanding opportunities for**

## Licensed Practical Nurses

**Next Intake: August 25, 2025**

**Course Requirements:** One year acute care nursing experience in acute medicine, acute surgery, cardiac care or emergency. Completion of an approved cardiac rhythms course is required prior to the commencement of the CCNOP. Accepted applicants that require cardiac rhythms education will be enrolled in the CCNOP cardiac rhythms course scheduled one week prior to the CCNOP course start date.

“What I really appreciated about CCNOP is that as you do the course, your knowledge and understanding takes away the intimidation factor. Suddenly you understand the pathophysiology and why the monitor is beeping or how to administer life-saving medications. You’re given this toolbelt of knowledge you can draw on.”

— Rachel, Nurse, Medical Intensive Care Unit
