

A life-changing career as a Critical Care Nurse

Support innovative care,
expand your skills, and make
a difference.

Critical Care Nursing Orientation Program

Comprehensive training to fully
prepare you to work with critically ill
patients in an ICU

Additional support to integrate
CCNOP graduates into the ICU and
your new team

Course Requirements:

Open to RNs and LPNs with at least one year
of acute care experience in medicine, surgery,
cardiac care, or emergency. Completion of
Cardiac Rhythms course is required.

How it works

Guaranteed job in Critical Care:
apply directly to preferred ICU (at
hospital of your choice) as a nurse
trainee and start on the unit upon
completing your training.

Comprehensive Training: fully
preparing you for your new role.
You will participate in theory and
lab training, with in-unit
experience and clinical orientation
supported by experienced nurse
educators.

Accessible Education: blending
online and classroom learning
followed by hands-on experience
through a specialized clinical
practicum in the unit where you will
work upon graduation. Lab and
clinical (buddied and specialized)
experience are important to the
CCNOP program.

Paid Training: You will be paid a
full-time salary throughout your
comprehensive training.

Critical Care Nursing Orientation program

Rachel

Nurse, Medical Intensive Care Unit

What I really appreciated about CCNOP is that as you do the course, your knowledge and understanding takes away the intimidation factor. Suddenly you understand the pathophysiology and why the monitor is beeping or how to administer life-saving medications. You're given this toolbelt of knowledge you can draw on.
