

Manitoba is Hiring Respiratory Therapists

HEALTH CAREERS
MANITOBA

A career as a respiratory therapist can take you anywhere!

Respiratory therapists provide care to patients who have problems with their lungs or breathing. Respiratory therapists work in hospital, long-term care, and community settings. They're also members of teams that helps safely transport patients who need breathing support.

Every day brings new challenges where my skills get put to good use. The decisions we make as an RT can drastically improve the status of a patient.

I have no regrets with my career decision and think if you're passionate, driven, kind, and enjoy working with others you'd be a perfect fit as a respiratory therapist.

— Sheila, Respiratory Therapist
