Dr. Valerie Krysancki
Clinical Psychologist

“ I love that I am continually engaged in my everyday work by the diversity of what I do. I enjoy the fast-paced work environment balancing clinical work with patients, putting the puzzle pieces together and teaching medical students – there’s never a dull moment! ”

Clinical Psychology in Manitoba

Manitoba offers a wide variety of rewarding and stimulating job opportunities that will allow professionals to contribute to knowledge, learning, and clinical care alongside compassionate colleagues who strive for excellence.

Manitoba clinical psychologists offer psychological assessment, treatment and consultation services at hospital sites, in primary care and in community specialized services in Winnipeg and throughout the province.

With mentoring and collegial support available, clinical psychologists working in Manitoba benefit from strong collaboration with physician colleagues in a wide variety of settings. Consider the option of joint clinical and academic practice with protected time for work in the University of Manitoba's Department of Clinical Health Psychology, a department of the College of Medicine.

License to Practice

In Manitoba, Psychologists are a regulated health profession, licensed through the [Psychological Association of Manitoba](#). A doctoral degree (PhD or PsyD) is required for independent practice as a Clinical Psychologist. Following completion of the doctoral degree, registration is first as a Psychologist Candidate, which involves a year of supervised practice, and formal national and provincial exams, resulting in licensure for independent practice as a Psychologist (C.Psych).
